Common Desk (Coworking)

Innovation, charm, and comfort come together to make our first location in McKinney, Texas a natural choice. This red brick building on E. Davis Street, just steps away from Historic Downtown McKinney, truly offers everything—from large, open meeting spaces to fully equipped podcast rooms. Intelligent design weaves in the warmth of McKinney's tight-knit community with modern convenience and amenities. A large ornamental stairway through the center of the building makes flexible coworking a breeze, while an impressive array of generously sized private offices and business suites provides dedicated areas for teams of 1 to 18 people. offers all-inclusive access to full kitchens, conference rooms, a fitness facility, and an in-house Fiction Coffee espresso bar.

Google Accelerator for Female Founders

Google for Startups Accelerator for Women Founders is a three-month digital accelerator program for Seed to Series A technology startups based in the U.S. and Canada. The accelerator is designed to bring the best of Google's programs, products, people and technology to women-led tech startups across the region. In addition to mentorship and technical project support, the accelerator also includes deep dives and workshops focused on product design, customer acquisition and leadership development for founders.
